Professional Summary

Results-driven **Frontend & Mobile Developer** who has a degree in **Computer Science** which helped me now specialize in scalable, high performance web and cross platform mobile applications. Expertise includes **Next.js**, **React Native**, and **TypeScript**, crafting pixel-perfect interfaces with **Tailwind CSS** and **Motion**. Proficient in advanced state management (**Redux Toolkit**) and modern data fetching (**TanStack Query**). Experience extends to the fullstack layer, utilizing **Prisma**, **Supabase**, and **PostgreSQL** to architect robust, end-to-end solutions.

Skill Summary

- **Frontend Ecosystem:** React, React Native, Next.js, Redux Toolkit, Context API, TanStack Query
- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
- **Styling:** Tailwind CSS, Bootstrap, Material UI, Motion & GSAP (Animation)
- **Backend & Databases:** Node.js, PostgreSQL, Supabase, Prisma(ORM), RESTful APIs
- **Development Tools:** Git, VS Code, Figma, Web Performance Optimization
- **Methodologies:** Responsive Web Design, Agile/Scrum, Problem-Solving, Team Collaboration

Professional Experience

Independent Frontend Consultant (*Self Employed, Self Directed Learning & Project Work*)

2022 - PRESENT

- Developed proficiency in ReactJS, TailwindCSS, Redux Toolkit, SEO, and TanStack Query through self-directed study and hands-on projects.
- Building projects for clients.
- Dedicated 6-8 hours daily to mastering modern frontend technologies through coursework and building production-grade projects.
- Built and deployed scalable, responsive web applications(Soozzer, WroteNote, Bill Splitter).

Web Developer — *Fountain University, Osogbo*

12/2022 - 01/2024

- Collaborated with cross-functional IT teams to integrate secure authentication systems, reducing unauthorized access incidents by 15%
- Optimized frontend performance using ReactJS and CSS3, achieving a 20% faster page load time across key platforms.
- Developed responsive UI components to ensure seamless access across mobile and desktop devices, improving mobile engagement by 30%.

Administrative Assistant — Fountain University, Osogbo

11/2021 - 11/2022

- Managed student data using **Microsoft Excel**, improving data accuracy and accessibility by **25%**.
- Took on responsibilities similar to system administration by ensuring the smooth operational flow of the department in the absence of senior management, demonstrating an understanding of system maintenance and continuity planning.
- Drafted and distributed official memos, enhancing communication efficiency across the department.

Web developer Intern — National Nigerian Petroleum Corporation, Abuja

03/2019 - 03/2020

- Engineered a **Fullstack Attendance Register** web app for **50+** interns, reducing administrative workload by **6%** and ensuring accurate attendance records for evaluations and payroll.
- Developed and deployed a secure **Laptop Check-in/Check-out system** for the interns, improving office security, cutting down the loss of laptop incidents, and enhancing overall asset management by **10%**.
- Technologies used: **HTML, CSS, BootstrapCSS, PHP, MySQL**.

Projects

- **Soozeer** — *Social Media Platform*([link](#))
 - Developed a social media platform for sharing ideas and thoughts.
 - Built the front end using **ReactJS, TailwindCSS, and JavaScript**, ensuring a responsive and visually appealing design.
 - Managed application state efficiently using **Redux Toolkit** and optimized data fetching with **React Query**, reducing API call latency by **10%**.
 - Integrated **Supabase** for backend services, including authentication, database management, and storage, ensuring scalability and security.
- **WroteNote** — *Note-Taking Web App*([link](#))
 - Designed and implemented a note-taking application capable of handling **500+ notes per user**, enabling seamless data storage and retrieval.
 - Utilized **ReactJS, Framer Motion (now Motion), and TailwindCSS** to create an intuitive and interactive user interface.
 - Integrated **Supabase** for secure user authentication and data storage, achieving **99.9% uptime**.
- **Bill Splitter** — *Bill Splitting Tool*([link](#))
 - Developed an intuitive web app for splitting bills and calculating tips among multiple users.
 - Engineered with **vanilla JavaScript** for core functionality.

Education

Ambrose Alli University, Nigeria — B.Sc

11/2016 - 03/2021

- **Honours Bachelor of Science in Computer Science**
- **Relevant coursework:** Data Structures, Algorithms, Web Development, Database Management.

Certifications

- **Frontend Developer (React)**
HACKERRANK | [CERTIFICATE](#)

Languages

- English (*Fluent*)
